

This year is going to be epic. We are doubling our berry plants and fruit trees. We updated our website and added this catalog. We had such a great year last year that we cannot wait for spring.

WHAT'S NEW FOR SPRING 2024

- 10 New Varieties (Raspberries, Blueberries, Apples, Plums, Peaches, Pears, Apricots, Maples, Arborvitae)
- 2 Varieties Discontinued (Black Chokecherry, Highbush Cranberry)
- 800+ more plants
- New Catalog, Newsletter and Website upgrade

Forget the troubles of the world and spend some time in the garden. This spring is going to be a great time to plant some fruit trees. We live in one of the best places in the world to grow food. MN has great soil with 30+ inches of rain each year and a long enough growing season to grow most fruit trees. The health benefits of fruit and berries are an essential part of a healthy diet. They are packed with vitamins, minerals, fiber and antioxidants.

Raspberry (Heritage)

Heritage Raspberries are very hardy in cold climates and produce a big harvest.

Zone:	4-9	Mature Height:	5-6'	Available (Spring):	120
